“Heritage Day at Camp Bethel”

On the first Saturday of this month, for the 31st year, Brethren from all over the Virlina District will gather at Camp Bethel for Heritage Day. This event is one of Camp Bethel's major fundraisers each year, along with the Sounds of the Mountain festival and the Camp Bethel Golf Tournament. Groups from various congregations will set up booths to serve a large choice of foods and beverages as well as selling craft and other items. It is always a wonderful opportunity to get out and support the ministries of Camp Bethel, as well as a chance to see and talk with many people from all over our district.

Every year, I look forward to getting out to the Camp for this special event. Like many people who come year after year, Tasha and I have developed a taste for specific items that are available each year. I always want to get a funnel cake from Cloverdale's booth, while Tasha always gets a bag of kettle corn from the heritage area. As well as the food, we've often been able to begin our Christmas shopping by purchasing some of the craft items (and even once, some plants!). It's a wonderful opportunity to get good food and support the camp.

For many years, our congregation would have a booth that would make fried apple pies. Over the last several years, we've moved from this to taking up a special collection for several Sundays. And while this special offering ended the last Sunday of September, we are always willing and able to pass on designated offerings to Camp Bethel.

If you've been to Heritage Day in the past, I'd like to encourage you to attend once again this year. If you haven't been, come out and experience this wonderful, joyous morning!

In Christ,
Pastor Doug

Things To Do This Month

1. Eat more fiber. It can reduce hemorrhoid symptoms.
2. Have your feet measured. Your shoe size can change.
3. Check your shots. You may need a second pneumonia shot.
4. Hope for the best. Optimism can increase resilience.
5. Exercise more. Regular workouts countered cognitive decline in a recent study.
